

## FOUNDERS GUIDELINES

Many volunteers-based initiatives fail because of:

- Lack of Clear Goals
- Emergence of Ego
- Private Interests
- Lack of Coordination
- Inflexibility
- Nepotism, Pyramids
- Focus on differences

At **METANOIA COMMUNITY** we recognise these and other challenges and we will try our best to mitigate them.

## CLEAR GOAL

“We put our differences and egos aside to focus on the single objective of bringing power back from the top 0.1% to the bottom 99.9%”

We aim to create change by aggregating a huge number of individuals, organisations and communities and synchronising and amplifying their efforts.

As a community we want to **educate and encourage** people to **take local action**, we want to give voice and space to alternative models of living, spending and thinking and fight the overarching centralisation of power (economic, media, politics).

This means that the objective of **METANOIA** is fundamentally to “destructure centralisation tendencies” and “encourage transfer of power from centralised aggregator” to local people and economies.

## INCLUSIVE

“We put our differences and egos aside to focus on the single objective of bringing power back from the top 0.1% to the bottom 99.9%”

It does not matter what is your nationality, religious belief, age, gender, philosophy or any other differentiating element: you are welcome to join the **METANOIA COMMUNITY** and work with us to bring power, money and influence back to the people.

## EDITORIAL GUIDELINES

“We put our differences and egos aside to focus on the single objective of bringing power back from the top 0.1% to the bottom 99.9%”

Established power relies on “*Divide et Impera*” (Divide and Rule): it will pit underpaid and demoralised police forces against underpaid workers, young people against old people, a nation against another nation, a people against a people.

At **METANOIA COMMUNITY** we realise that there must be laser focus on deconstructing power and no time spent discussing or promoting content potentially divisive among the 99.9% of us.

The only division and difference that matters to us in this community is the difference of wealth, power, influence and control between the top 0.1% and the 99.9%.

For this reason:

- Content will follow our Metanoia Policies
- Focus will be on the issue of centralisation of power
- Other topics can be discussed in the framework of our main topic

We consciously agree to put aside our differences to focus on the main objective of redistributing power, money and influence to the local level.

## INNOVATIVE STRUCTURE

**METANOIA COMMUNITY** aims to avoid centralisation and still be effective.

We want to create a power rotation structure that allows various founding members to be in charge at specific times, for select durations, if they choose to do so (depending on everyone's time and resources).

This will be explored more and more and the aim is to give as much independence as possible to every individual and organisation in promoting actions at local and global levels, across multiple platforms.
